

Unity3D Developer (m/f)

We are Whow Games

In the heart of Hamburg City, your new job is waiting for you - including startup feeling. Together with 80 colleagues, you work to bring the glamour and entertainment of Las Vegas to Europe - with our successful Social Casino on Jackpot.de. From slot machines to table games, our players can experience the entire entertainment experience of the largest casinos in the world for free on their smartphone, tablet or PC.

Who are we looking for?

You are a passionate **Unity3D Developer (m/f)** and you are looking for exciting, agile and complex web projects and you are enthusiastic about new technologies? You love to work out system architectures and technical solutions for highly individual projects? Then we are looking for you for our Hamburg Game Factory! Full time and preferably ASAP.

Your responsibilities:

- Conception and development of mobile apps for our products, based on Unity3D and C#
- Responsible for extending existing apps with complex features
- Conception of APIs, Tools and workflows to optimize interdisciplinary work
- Performing tests of the developed software components
- Creation of software design and implementation of technical requirements
- Ensuring code quality through reviews and static code analysis
- Responsibility for the entire product life-cycle of the apps from conception to deployment
- Defining architectural and system design standards for our apps
- Design sophisticated user interfaces in close collaboration with UX designers

What you bring:

- You have excellent knowledge of Unity3D and the common programming language C#
- Knowledge of native development on iOS / Android or hybrid HTML5 web frameworks
- Knowledge of working with Xcode and Android-Studio, Swift or Objective-C and Java is an advantage
- Knowledge of Lua and Javascript are also welcome
- You know that a successful app is not only determined by algorithms, but the handling and the UI are important factors
- Your way of working is systematic, analytical and always quality-oriented
- You already have several years of work experience as a developer and yet you're ready to grow, and grow with us
- A team-oriented, autonomous and structured way of working completes your profile
- Good knowledge of English

In addition to start-up flair and exciting tasks, we offer:

- You'll profit from a professional circle of colleagues with multi-year experience in the industry
- Dynamic environment with flat hierarchies and quick decision making
- Flexible work times and home office options
- Personal yearly further education possibilities
- Regular company events
- Fruit, drinks, and meal perks
- Subsidized HVV Profi Ticket for travel with public transportation
