

Frontend Developer (m/f)

We are Whow Games

In the heart of Hamburg City, your new job is waiting for you - including startup feeling. Together with 80 colleagues, you work to bring the glamour and entertainment of Las Vegas to Europe - with our successful Social Casino on Jackpot.de. From slot machines to table games, our players can experience the entire entertainment experience of the largest casinos in the world for free on their smartphone, tablet or PC.

Who are we looking for?

Are you a passionate **Front-End Developer (m/w)** and you're looking for a challenge in programming demanding, exciting, and highly individual products and features? Then you're exactly what we're looking for for our social casino in Hamburg! It's a full-time job and we'd like to have you here as soon as possible.

Your area of responsibility:

- Together with your colleagues in a project team, you'll (further) develop one of our new, cool products
- In order to develop a first-class front-end code for the wide spectrum of our entertainment portal, you'll work primarily with Angular 2+, HTML5 / CSS3, TypeScript, and Javascript
- In so doing, you'll construct system architectures and technical solutions for highly individual requirements and demands
- You'll create user interfaces that can be used intuitively and look fantastic
- You'll be decisive in assuming the implementation of designs, workflows, and components as well as their integration into our products and web applications
- You'll not only cooperate with your developer colleagues, but also together with the colleagues from the Graphics and UX departments
- Together with your colleagues, you'll continually contribute towards the improvement of our product

What you bring to the table:

- Big passion for programming
- Multi-year experience in the field of online front-end development
- Strong knowledge of Angular (2+), HTML5, CSS3, and JavaScript as well as at least one year of SCSS experience
- At least two years of experience with ES6 and TypeScript
- Can capably deal with components, directives, and decorators as well as strong knowledge on front-end performance and profiling
- Capable in working with Git
- You're a solid team player and you like to work independently within the team
- You have high demands of quality, dependability, and technical topicality
- Very strong knowledge of the English language in written and spoken word

In addition to start-up flair and exciting tasks, we offer:

- Dynamic environment with flat hierarchies and quick decisions
- Flexible working hours and home office
- Regular company events
- Fruit, drinks and meal allowances
- Contribution to the HVV Profi Card

We are looking forward receiving your application!
